

OneDollarGlasses

Over 150 million people worldwide need glasses but cannot afford them. Children cannot learn, adults cannot work and care for their families. We want to change that.

OneDollarGlasses was founded in 2012 by Martin Aufmuth and has since received many awards. Today, our non-profit association is active in ten project countries. Around 500 employees worldwide, including more than 300 volunteers in Germany are deeply committed to our common goal:
